

## **Utah Department of Transportation**

### **Addendum to the Special Event Guidelines for Parades and Foot Races**

- If at all possible, select routes for these type events off the State system because events of this nature usually will require total road closure.
- If you do use state routes, your traffic control plan must include a detour. The traveling public expects state routes to be open and free of delay. Therefore, detours must be clearly marked and as direct as possible to minimize inconvenience to through traffic.
- No road closure is allowed for any period of time longer than 15 minutes, however, with an approved traffic plan, this time may be extended by permit to cover the event duration.
- If a road closure is allowed the media must be notified 15 days in advance with a press release that includes the time of the road is closed as well as the specific time of each intersection closure.
- Uniformed Police Officers must man all road closures during entire closure period.
- Spectators must be kept a safe distance from participants to view this event.
- Pavement markings to control spectators or to direct participants are not allowed.
- Section 41-6-114 of the Utah State Code prohibits material or objects from being thrown from a moving vehicle.
